COMMUNITY HOUSE

Following the Community House fire an insurance adjustment was made of two thousand two hundred and seventy-two dollars and eighty cents ($2272.80)

After much discussion as to the best means of repairing the house so as to give the maximum use to the town and to create an especially attractive apartment so as to ensure steady income to the town, contracts were let and the work executed.

$1593.13 was paid to John G. Thompson for material and labor. Of the material, the Carroll County Land and Lumber Co. furnished $413.66 and the Huckins Lumber Co. $152.06. $105 was paid to Neal Harden for re-wiring and $348 to Raymond Fall for painting and papering. $60 was paid to Arthur Gleason for plumbing work; $22.50 to Sanborn McDuffee Co. of Rochester for new window shades and $107.50 to the Palmer Plumbing and Supply for plumbing materials. This means that a total sum of $2236.13 was expended. A small balance is due to the Palmer Plumbing and Supply Co. which must be adjusted.

As the House has been re-built, the tenant occupies the first floor, leaving the second floor rooms entirely available for such responsible town organizations which may wish to use them. The large kitchen has been divided into two kitchens, one occupied by the tenant and the other by the Ossipee Lake Grange. The Grange has furnished their kitchen so that it is a very real credit to this group. The electric circuits have been re-run so that the tenant pays his own light bill and the Trustees the light bill for the rest of the house. Rent is set at thirteen dollars per month and has been paid regularly.

No fee has been paid to the architect, Richard O. Palmer for his work, nor to myself, for the work involved in the re-building of the house. I feel that both

Mr. Palmer and myself are entitled to modest remuneration for time expended.

REPORT OF THE OSSIPEE SPORTS DEVELOPMENT ASSOCIATION

The Ossipee Sports Development Association Inc., is pleased herein to issue to the Town of Ossipee a report on the financial condition of the Organization. This report includes all items of expense and income from December 15, 1939 to February 15, 1940.

The Association wishes to point out that although skiing conditions have been far from satisfactory, that we have been able to reduce our indebtedness by $570.11. Most of this sum was raised by public subscription through the help and cooperation of the Ossipee Rotary Club and the members of the Organization itself; and, as a result, this amount is a non-recurring income which will, in other years, have to be made up by profits derived from the operations of the Tow itself. There is a possible chance, if snow conditions improve and with the aid of a late Spring, that the remaining indebtedness of $227.88 might be entirely cleared.

The Ski Slope has been highly praised by the majority of users, with the one complaint that the bottom of the slope should be cleared of the remaining rocks and stumps, thus eliminating the bottleneck that now crowds the downcoming skiers into a small area creating a serious hazard. This, and the problem of suitable sanitary facilities, make a situation that should be considered by all who are concerned with the success and future development in publicising the Town of Ossipee for Winter Sports.

At this time the Ossipee Sports Development Association Inc., wishes to express its appreciation to the Selectmen, the townspeople, the Rotary Club and personally to L. O. Moulton, Kendrick Welles Diller, and Marguerite Fletcher for their support and aid. It is necessary to work in the same manner, for future

success depends entirely on improvement of what has already been accomplished.

SUPERINTENDENT'S REPORT

"It costs from $2000 to $2500 to educate a farm child up to the age of fifteen. The migration of farm youth to the city is, therefore, a costly contribution by rural families to city life. The United States Department of Agriculture estimates that the migration from farm to city from 1920 to 1929 represented a contribution of fourteen billion dollars."

If this migration is still going on, wouldn't it be well to find jobs for our boys and girls and keep them at home? The Placement Committee arranged last summer to help high school graduates and this plan should have the support of every citizen of Ossipee. Some of our graduates have found it possible to go on to higher institutions of learning where they are making good. More could have gone if help could have been provided. Some have jobs but should be finding ways to work up to higher positions.

The unemployment situation in the country is tragic. Allegedly there are 10,000,000 unemployed, 4,000,000 being young persons between sixteen and twenty-four years of age. Disappointed youth has the greatest right to complain. Free government is on trial today in the opportunity and faith in the future that it offers youth. Unemployed youth is the soil on which dictatorships grow to power.

It would be very much to the point to introduce Agriculture or some form of advanced Mechanic Arts for the ppupils of Ossipee High School. It is much to be regretted that the high school building was not enlarged, providing space for more activities of a practical nature.

Improvements

Water Village schoolhouse has been moved to a new and delightful location, with ample playground and much better light. Septic toilets were installed

and the heater repaired. A well should be driven to furnish water and electric lights should be installed as soon as possible. A porch should also be built over the door and the lawn graded and beautified.

It is recommended that a new shed be built at West Ossipee. The old one is in bad condition and in danger of falling.

Shingling should be completed at the Center, an oil burner installed, the athletic field completed and the lawn properly graded and beautified. A fan should also be installed to provide better controlled ventilation.

High School

We are proud to believe that our high school is having its best year. The attendance is better and the scholarship is gradually improving. There are seven graduates studying in college or normal school: Patricia Eldredge, Dorothy Wormstead, Elizabeth Loring, Marion Meserve, Plymouth Teachers' College; Dorothy Hill, Westbrook Junior College; Virginia Hill, University of N. H., 1943; Edna Lord, Keene Teachers' College, 1943.

Our successful headmaster, John H. Frye, is ably assisted by Phil A. Bennett and Barbara E. Pattee. Especially interesting this year are the club and athletic activities, teaching boys and girls how to be strong citizens. The orchestra and Glee Club keep music alive and interesting.

Health Work

Good work has been done by our faithful nurse, Mrs. Marion Davis. Statistics are to be found in the nurse's report. Special attention has been given to posture in standing and sitting, a matter which often makes the difference between health and sickness. A special motion picture reel was secured and used by the teachers to supplement oral instruction. Posture is very essential in personality which plays such an

important part in life's success.

Attendance

For the year ending June 30, 1939 we had an average attendance of 265, an average membership of 281 and a percent of 94.

Schools having a percent of 95 or over are as follows:

West Ossipee 98.12% Granite 96.08%
Center Primary 95.78% Center Intermediate 95.63%

Roll of Perfect Attendance

High School: Irene Holbrook, Jean Kirkwood, Barbara Pearson.
Grammar School: Ellsworth Philbrick, Henry Vigue.
Intermediate School: Dwight Knox, Warren Philbrick.
Primary School: Lloyd Wilkins, Forrest MacDonald.
West Ossipee: Janet Eldridge, Avonne Knox, Gertrude Hartford.

In conclusion, I wish to thank the school board, teachers, pupils and citizens for helpful support and cooperation.

Respectfully submitted,
F. W. JACKSON
February 1940 Superintendent of Schools
